HOME AND SCHOOL COMMUNICATION AND SUPPORT

Teacher E-Mail Addresses: All teachers at this school have been issued e-mail addresses.

Online Homework Information: A portion of the school website is devoted to homepages.

The following narrative about how this school promotes and supports parental involvement was submitted by this school.

Moriarty School is committed to fostering an active partnership with families and the community to promote children's academic and personal growth and success. The staff supports students' learning at home with ongoing two-way communication with parents about their children's progress, assignments, and personal and social development. Parents are informed daily about homework via telephone messaging and student planners. Parents and teachers utilize daily logs to communicate students' success and needs. Parent conferences and Student Study Team meetings bring together teachers, administrators, and specialists to collaboratively identify strategies and resources at home and at school. Parents have ready access to our district, school, and PTO websites. Each teacher has developed a website informing parents of assignments, learning activities, and events. In order to assist our non-English-speaking parents, we provide written communication in Haitian Creole and Spanish. Through use of CyraCom Interpretation Services, we are able to verbally communicate in virtually any language our parents may speak. The school offers numerous opportunities for families to learn about our programs and activities. Curriculum Night and Math Night inform parents of the content and skills their children master in the content areas. Our Meet 'n Greet Open House, citywide art shows and concerts, school-to-home letters, and parent conferences provide information about our programming. Our very active PTO provides enriching educational experiences through cultural programs, assemblies, and field trips and sponsors our monthly Character In Action character development program. The PTO sponsors two book fairs per year in an effort to promote literacy among students and parents. It hosts numerous evening and daytime events that bring children, their families, and school staff together for entertaining events. Teachers and the PTO actively recruit parent volunteers.

EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Each year the Moriarty School student body reflects greater racial, ethnic, and socio-economic diversity. Our multicultural community consists of 2% American Indian, 5% Asian American, 24% Black, 23% Hispanic/Latino, and 46% White. Sixty-eight percent of students are eligible for free/reduced meals. Over 27% of our students come from homes in which the dominant language is other than English. In Moriarty's ESL/Bilingual Center, a bilingual teacher provided instruction to twenty-five students from Haiti, Tibet, China, Cape Verde, Bangladesh, Korea and Pakistan. Sixteen percent of our students received services in English as a Second Language. Our school community embraces diversity as a valuable force for the intellectual, social, and emotional development of all of our students. John M. Moriarty Elementary School pursues high quality opportunities to reduce racial, ethnic, and economic isolation. This year students participated in ten inter-district programs sponsored by LEARN. A third grade class partnered with the Niantic Center School in East Lyme, a Gr. 4/5 multi-age class participated in the Magical Mystery Tour, and two gr. 4/5 Integrated Day classes and a fourth grade class partnered with the Quaker Hill School in Waterford. A service opportunity brought together our newly arrived ELL students and other Moriarty students. Twenty-five students from grades four and five joined the Garden Club and cultivated a community garden that provides food for Norwich's needy families. Ninety-six students from Moriarty participated together in the BRIDGES program, which involves learning, recreation, and service.

SCHOOL IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this school.

This year the primary thrust for school improvement was to advance reading performance by developing students' fluency. A major initiative entailed implementation of fluency-building strategies and activities in all classrooms. Activities such as the Poetry Academy, Read Alouds, Readers' Theater, and literacy stations involving fluency were infused in our literacy and enrichment blocks. Our focus on reading comprehension remains strong as well through continued implementation of the Comprehension Toolkit Program in grades 4 and 5. Students needing additional support receive remedial assistance via our Early Intervention and after school tutorial programs. The increased emphasis on non-fiction reading, daily reading for pleasure via Sustained Silent Reading, and incentive programs also help to bolster students' reading proficiency. To promote a strong understanding of number sense, Moriarty teachers utilize the Everyday Counts/Calendar Math Programs at all grade levels. In addition, our district math coordinator collaborates with our teachers throughout the year, often visiting classrooms to provide job-embedded professional development. School-wide data team, grade-level collaboration, and the use of data driven decision making provide ongoing analysis and evaluation of student assessment data to inform and improve instruction. Improvements of the Special Education servicing have included tighter alignment with our reading and math programs, more pre-teaching of math concepts and strands, and intensified collaboration with classroom teachers. Parental involvement in school improvement is accomplished by promoting parents to helping their children in learning activities at home and our PTO's sponsoring of educational assemblies and events and assisting with funding of field trips. Parent and community volunteers assist in the classroom and provide needy students with opportunities for more individual assistance. The PTO's feedback and support help sustain the total school community's involvement in improving student performance.

SUPPLEMENTAL SCHOOL INFORMATION

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

The John M. Moriarty Elementary School has a total enrollment of 508 students in grades kindergarten through five. Supplementing our rigorous and rich curriculum is a plethora of educational, cultural and recreational programs. Reading, a school priority, is encouraged through programs such as Reading Counts, the Governor's Reading Challenge, Sustained Silent Reading, and Dr. Seuss Night. Moriarty students' achievement in mathematics has been a relative strength. Our math program builds a solid foundation of basic skills for more complex problem solving and conceptual understanding. Participation in the All City Chorale, Art Show, and school concerts develops students' appreciation of the arts. Through their involvement in inter-district programs sponsored by LEARN, Moriarty students learn about local history, social justice, the environment, and mathematics. Character education is fostered through a variety of school-wide and class initiatives. The Character In Action, D.A.R.E., and Second Step programs promote students' social and character development, encourage collaborative problem solving, and help make Moriarty a safe, caring, and affirming place in which to learn and grow. Participation in service opportunities including kindergarten chaperones, the Girl Scouts, and charitable activities helps students develop responsibility and a sense of civic connectedness. The PBS initiative has made strides to improve school climate and enhance children's school experience. The outstanding efforts of our very active Parent Teacher Organization forge a more enriching, multi-dimensional school experience for students and complement the goals and initiatives of the school. In addition to funding educational and cultural presentations, the P.T.O. sponsors a variety of recreational activities and field trips for students and special fun events for families.
